Summary

M.Tech CSE student at NIT Jalandhar with strong problem-solving skills in Data Structures and Algorithms. Experienced in building scalable web applications using ReactJS and Firebase (Authentication, Firestore). Passionate about developing efficient, user-centric software and seeking Software Development Engineer roles.

Education

M.Tech in Computer Science and Engineering 2025 – Present

Dr. B.R. Ambedkar National Institute of Technology (NIT), Jalandhar

CGPA: 7.86 / 10.0

B.Tech in Computer Science and Engineering 2021 – 2025

Dr. A.P.J. Abdul Kalam Technical University (AKTU), Uttar Pradesh

CGPA: 7.92 / 10.0

Senior Secondary (Class XII) 2021

MG Public School, Muzaffarnagar

Percentage: 84.6%

Secondary (Class X) 2019

MG Public School, Muzaffarnagar

Percentage: 89.2%

Experience

Teaching Assistant Sep 2025 – Present

Dr. B.R. Ambedkar National Institute of Technology (NIT), Jalandhar

- Assisted faculty in conducting tutorials, lab sessions, and doubt-solving classes.
- Mentored students in Data Structures, Algorithms, and programming fundamentals.
- Evaluated assignments and provided feedback to improve code quality and logic.
- Strengthened communication and technical explanation skills.

Projects

ShopEasy (E-Commerce Web App) *GitHub — Live*

- Developed an e-commerce web application using ReactJS and Firebase.
- Implemented authentication and session management using Firebase Authentication.
- Used Firestore for real-time database operations to manage users, products, and orders.
- Built core features including product listing, cart management, and order placement.
- Implemented real-time data synchronization for seamless user experience.
- Deployed application using Firebase Hosting.

LinkBite (URL Shortener with Analytics) *GitHub — Live*

- Built a URL shortening application using ReactJS and Firebase.
- Implemented short link generation and efficient redirection system.
- Designed Firestore database to store URLs, shortened links, and analytics data.
- Developed analytics features to track click counts, device types, and usage insights.
- Optimized queries for fast redirection and real-time tracking.
- Deployed application using Firebase Hosting.

TextAlter (Text Utility Web App) *GitHub — Live*

- Developed a React-based text utility application for text transformation and analysis.
- Implemented features such as case conversion, word/character count, and formatting tools.
- Provided real-time updates using efficient state management.
- Designed a clean, responsive UI for better user experience.
- Optimized performance for fast and smooth text operations.

Technical Skills

Programming Languages: C++, JavaScript

Core CS Concepts: Data Structures, Algorithms, OOP, Operating Systems, DBMS

Web Development: Firebase, REST APIs, Full-Stack Development

Frameworks / Libraries: ReactJS, NodeJS, ExpressJS

Databases: MongoDB, Firestore

Tools: Git, GitHub, VS Code, LaTeX

Relevant Coursework

Postgraduate: Advanced Data Structures

Undergraduate: Design and Analysis of Algorithms, Operating Systems, Database Management Systems, Software Engineering

Achievements & Activities

- Strong command over Dynamic Programming, Trees, Graphs, and Recursion.
- Qualified GATE examination and secured admission to a National Institute of Technology.
- Actively engaged in problem solving and self-learning of web technologies.
